EDUCATION

Gautam Buddha University

B. Tech + M. Tech CSE in Software Engineering, CGPA: 8.5

Greater Noida, Uttar Pradesh

August 2020 – Present

Narayana IIT Academy, Raviriyala

Intermediate – Physics, Chemistry, Mathematics: 88%

Hydrabad, Telangana State

March 2017 – March 2019

EXPERIENCE

Software Developer Intern — Arial Labs

June 2024 – Feb 2025

California, Remote

- Started with developing static web pages using React.js and Tailwind CSS, and progressed to independently building the company's core Chrome extension using Manifest V3 with cross-browser support.
- Integrated Claude API with backend services using AWS Lambda, DynamoDB, and S3 to enable serverless, scalable AI-powered functionality, maintaining the codebase via GitHub.
- Built and deployed the MVP along with an automated dashboard to track user activity and internal operations.

Internship Trainee — Samsung Innovation Campus

June 2024 – Sept 2024

Greater Noida, Offline

- Developed and fine-tuned machine learning and AI models using Python, TensorFlow, and PyTorch.
- Applied AI techniques for data classification, prediction, and pattern recognition on large datasets.
- Performed ETL processes, exploratory data analysis (EDA), and created visual dashboards using Power BI and Excel.

Web Developer Intern — SOMHH

Nov 2023 – Jan 2024

Delhi, Remote

- Developed a static fundraising website using Svelte and Bootstrap, significantly enhancing digital presence and outreach.
- Integrated Razorpay and Stripe payment gateways, streamlining the donation process and improving user experience.

Web Developer Intern — Gautam Buddha University

March 2023 – June 2023

Greater Noida, in campus

- Developed a full-stack web app with MERN stack to manage and track job applicants for university positions.
- Collaborated with the Registrar's Office to gather requirements and deliver features, optimizing the hiring process.

PROJECTS

Waybar-Hotspot | Bash, Zenity, create_ap, QR

Feb 2024 – Present

- Module for monitoring and managing Wi-Fi hotspot status with graphical prompts using Zenity.
- Supports custom configurations for create_ap and QR code display in tooltips for easy access.

Pixelify | ReactJS, Bun, Prisma, Sanity, Docker, Netlify

Jan 2024 – Feb 2024

- Fullstack platform for finding inspiration through pictures, inspired by Pinterest.
- Built using Bun, Prisma, ReactJS and Sanity; deployed using Netlify and Docker.

Vulnerability-Tracker | ReactJS, Bun, Prisma, Docker

Dec 2023 – Jan 2024

- Fullstack cybersecurity tool to track vulnerabilities detected previously by the system.

Batfetch - Linux Battery Information Analyzer | Shell, JSON

Nov 2023

- Command-line tool for detailed presentation of battery info on Linux systems with no dependency.
- Provides a JSON output option for easy integration with scripts and automation processes.
- Available for download and installation; contributed to the Linux open-source community and AUR.

TECHNICAL SKILLS

Programming Languages: C++, C, Bash, JavaScript, Python, Lua, LaTeX

Frameworks & Libraries: ReactJS, FXTUI, TailwindCSS, Chrome Extensions

Databases: MySQL, MongoDB

Tools: AWS, QEMU, Linux, Git, GitHub, nVim, Postman, Raspberry Pi, Arduino

Soft Skills: Effective Communication, Problem-Solving, Leadership, Adaptability, Team Collaboration

ACHIEVEMENTS & POSITIONS OF RESPONSIBILITY

- Published research paper at CVR2025 NIT GOA titled “Adaptive DVFS Application Development Framework for IoT Devices.”
- Winner of Hackathon – recognized for innovative Linux-based solutions in system automation and open-source development.
- Founder of Teach Hackfed Community – fostering tech learning and collaboration.
- Manager, Glitch – led the Annual Tech Fest and Entrepreneurship Summit at GBU.
